

2018 SILVERADO 2 BOARD CANDIDATE BIOS

Frank Catanzarite

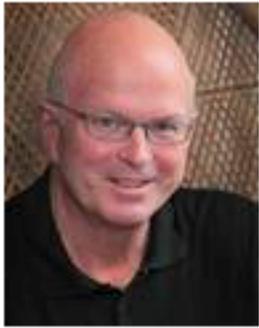

My wife and I have owned at Silverado II almost 30 years. Our sons grew up skiing Winter Park and now my granddaughters are learning to ski here as well. I was a speech and debate coach in my former life and like to think I can look at things from every perspective. My background in communications helps me know how to listen, analyze issues and solve problems.

Having experienced ownership under John Jordan and Allegiant management I like the direction Silverado II has taken in the last 10 years.

I have been instrumental in creating a 10 year planning committee, developing the 10 year plan and helping to implement a plan to enhance our property.

There will always be challenges ahead. I have enjoyed working with the current board and feel we have good working relationships at this time. I am running for another term to help provide continuity and try my best to maintain our property within our current budget constraints. I hope you all will support me in this endeavor.
